O R D E R

In the letter 2nd read above, the Director, M/s Mohan Green Energies Pvt. Ltd. has requested the Government to allocate 1.0 MLD of water from Polavaram Right Main Canal for their proposed 200 KLPD Grain based Ethanol Plant in Remalle Village, Bapulapadu (M), Krishna Dist.

2. As desired by the Government vide Memo 3rd read above, the Engineer-in-Chief (Irrigation), Water Resources Department, in the letter 4th read above has furnished his report and recommended the proposal to Government to accord permission to M/s Mohan Green Energies Pvt. Ltd. for drawl of 1.0 MLD of water from Polavaram Right Main Canal, subject to the following terms and conditions:

1. Necessary Off-Take Sluice / intake structure to draw water from the PIPRMC without entering into canal water prism shall be proposed by the industry/ company at its own cost.
2. The detailed designs and drawings of the subject work with regulation

arrangements are to be got approved by the competent authority of WRD.

3. There should not be any other construction other than specified in the drawings approved by the competent authority.
4. Construction work shall be carried out with utmost care without disturbing the canal banks and property of the W.R Department.
5. Execution of the subject work shall be carried out under the supervision of Water Resources Department in accordance with Codal provisions and guidelines issued by the competent authority.
6. The work has to be completed before release of water into the canal or work has to be carried out during no flow condition in the canal only.
7. The work shall be executed without causing damages to the existing banks of the canal. The construction and post construction operations of the scheme should not cause any obstruction to the operation and maintenance of the Canal and its components / appurtenances. The company shall take the safety measures for its scheme and shall be responsible for safety of all activities in the site.
8. The Hydraulic Particulars of the canal should not be disturbed / altered during execution of the work.
9. No obstruction should be caused to the free flow of canal water during construction, drawl of water and under any circumstances.
10. The company shall be responsible for the safety, soundness and maintenance of the structure / scheme and its appurtenant works as long as it exists.
11. Any damages occurred to the WRD Properties during execution as well as during drawl of water shall be made good at the cost of the company as per Codal provisions, guidelines of higher authorities and as directed by the Engineer-In-Charge.
12. The inspection paths & canal banks shall not be damaged. If any damage is found during execution or at any time in future, the same shall be restored and brought to the original condition at their cost as specified by the WRD.

13.There should not be any obstruction to the vehicular movement on the inspection path.

14.The essential maintenance /repairs of the inlet structure has to be attended by the company at their own cost and no compensation will be paid by the department.

15.Water releases to the company depends on the availability of water without hampering the irrigation needs. Priority shall be given to the irrigation needs.

16.The agency is not entitled to claim priority over sanctioned users.

17.The supply of water shall ordinarily be limited to the period dates as may be decided by the Executive Engineer, W.R Department., concerned whose decision in the matter shall be final.

18.The permit holder shall not give any water to any other purpose than under the permit and any infringement of this condition shall entitle summary cancellation of the permission granted.

19.The total utilization under the subject work should be kept within the permitted quantum of water and it has to be ensured by installing and maintaining the measuring devices at the outlet.

20.The company shall furnish the water drawl details to the Project Authorities on fortnightly basis for effective water audit.

21.The measuring device shall be installed at pumping station and should be calibrated by the Engineer-In-Charge preferably not below the rank of Executive Engineer and a certificate to that effect shall be issued by the Engineer-In-Charge before release of water to the company.

22.The calibration of the measuring device shall be done at the beginning of every season or not more than one year whichever is less.

23.No cross bund shall be formed across the canal for drawl of water.

24.The permission does not confer any ownership right to the company.

25.The Water Resources Department reserves the right to cancel or alter the permission now accorded at any time without assigning any reasons and any deviation to the above terms and conditions shall be

deemed to have been considered that the permission is automatically stands cancelled.

26. The company has to pay the water utilization charges, Royalty Charges and supervision charges as applicable as per the Government norms & BSO standards (i.e., A.P Board of revenue standing orders, clause 2-A & clause 7 (c), Vol.I, Pg.190 & 192).

27. The company shall abide by the rules of the WRD/ Government and modifications made if any in running and maintenance of the canal banks and structures issued by the Government from time to time in future. i.e. any conditions imposed from time to time by the WRD/ Government Departments shall be adhered to by the company without any deviation.

28. The company should make its own arrangements for storage during the canal closure periods.

29. The company should pay royalty charges as per existing rates subject to revision by the Government from time to time. In case if the industry fail to pay water rates/ royalty charges, the permissions to draw water shall stands cancelled.

30. In case, if the company is getting closed, then the allocation may automatically gets cancelled.

31. Monthly reading must be taken jointly by the Department and the company.

3. After careful examination of the matter, Government hereby accord permission to M/s Mohan Green Energies Pvt. Ltd. for the drawl of 1.0 MLD of water from Polavaram Right Main Canal for their proposed 200 KLPD Grain based Ethanol Plant in Remalle Village, Bapulapadu (M), Krishna Dist. subject to the terms & conditions as mentioned at para (2) above.

4. The Engineer-in-Chief (Irrigation), Water Resources Department, Vijayawada and the Collector & District Magistrate of Krishna District, Machilipatnam shall take necessary action accordingly.
